

Remarks to FCC Rural Satellite Forum

Carson E. Agnew
January 27, 2004

LifeGuard Lone Worker

- Sends a distress signal from an injured or incapacitated lone worker
- The system automatically:
 - Pinpoints the worker and
 - Provides the worker's vital medical history, giving the dispatcher the necessary information for notifying emergency personnel.

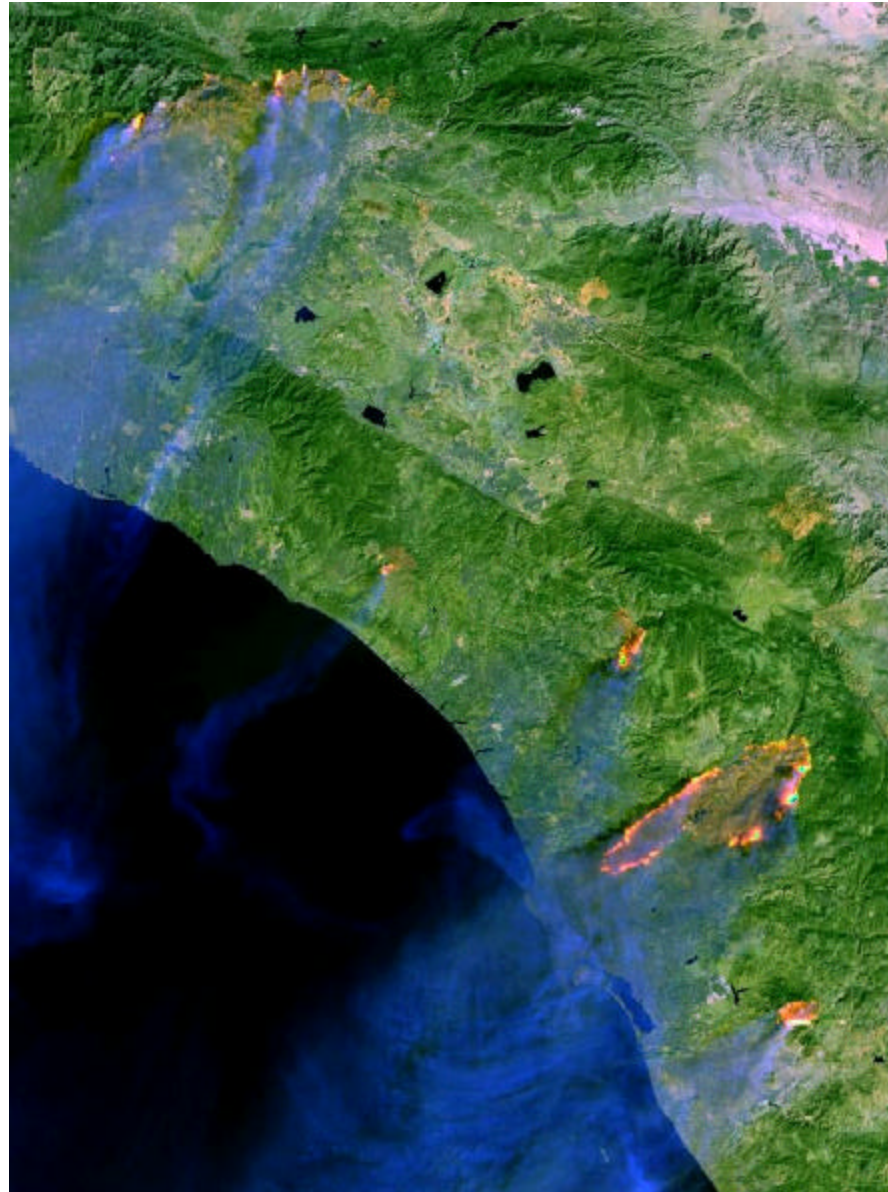

Law Enforcement

- Drivers License Checks
- Verify License Plates
- Stolen Vehicle Inquiries
- Text Dispatching

California Wildfires (October 2003)

- Over 20 people were killed
 - Deadliest outbreak of fires in more than a decade.
- Over 3,600 homes destroyed
- More than 750,000 acres consumed.

California Department of Forestry and Fire Protection

- Responsible for protecting of over 31 million acres of California's privately-owned wildlands.
- Provide emergency services of all kinds within 35 of California's 58 counties, including Riverside.
- Five mobile command centers pre-positioned statewide
 - Additional units in each county
- Primary operations centers wired together with common talk-group.
